

Dinh Nam Pham

Berlin, Germany | dinh-nam.pham@campus.tu-berlin.de | nphamdinh.github.io

EDUCATION

• Technical University of Berlin

M.Sc. Computer Science

Oct 2025 - Present

Berlin, Germany

- GPA: 1.0/1.0 (Perfect grade)
- Expected graduation in 2028
- 1-Year Study Abroad at Sophia University in Tokyo (Japan) from Sep 2025 to Sep 2026

• Technical University of Berlin

B.Sc. Computer Science

Oct 2021 - Dec 2025

Berlin, Germany

- Bachelor's Thesis: "**Game-Engine-Based Talking Heads for Audiovisual Gain**", graded 1.0 (highest German grade)
- Semester abroad in summer 2024 at international summer schools of Tohoku University (June), Hanyang University (July) and Chinese University of Hong Kong (August)

EXPERIENCE

• German Research Center for Artificial Intelligence (DFKI)

Student Research Assistant

Nov 2022 - Sep 2025

Berlin, Germany

- Investigated automatic assessment of generative text AI systems using **language models** and **NLP** tools
- Conducted independent research in **computer vision and video understanding**, focusing on visual speech and non-manual features in sign language
- Designed and implemented deep learning models for spatiotemporal video classification using **3D CNNs, BiGRUs, transfer learning, multi-task learning, and domain adaptation**
- Trained and evaluated models in **PyTorch** on GPU clusters, including robustness experiments, saliency-based analysis, and controlled visual ablations
- Built reproducible preprocessing pipelines for image, video, tabular, and text data using **Python, NumPy, OpenCV, Pandas, and Scikit-learn**

• Cambridge CARES (University of Cambridge)

Research Intern

Aug 2023 - Oct 2023

Singapore

- Deployment and bug-fixing of an agent to forecast power system time series
- Exploration, testing and modification of functionalities of the agent in Python to forecast with covariates
- Conduction of comprehensive literature review about time series forecasting utilizing knowledge graphs

• Mercedes-Benz Tech Innovation

Data Engineer Intern

Aug 2022 - Oct 2022

Berlin, Germany

- Implemented and optimized data platforms using tools such as Python, PySpark, Pandas, Power BI and Databricks
- Developed a function with PySpark in Databricks to efficiently calculate availability in vehicle tables including billions of entries and presented highly affected attributes as a dashboard in Power BI

SKILLS

- **Languages:** German (Native), English (C1, TOEFL iBT score of 100)
- **Programming Languages:** Python, Java, C, C++, C#
- **Frameworks & Libraries:** PyTorch, TensorFlow, Pandas, Scikit-learn, NumPy, OpenCV, PySpark
- **Database Technologies:** SQL, Postgres, DB2, Spark, BlazeGraph
- **Environments:** Linux, Docker, Kubernetes

HONORS AND AWARDS

- **Lance Stafford Larson Student Paper Award** 2025
IEEE Computer Society
 - The annual award is presented to computer-related publications by student authors, being judged on technical content, writing skills, and overall presentation
 - Awarded for the paper "Transfer Learning from Visual Speech Recognition to Mouthing Recognition in German Sign Language"
- **"GEH DEINEN WEG"-Scholarship** 2023
German Integration Foundation
 - Each year, 100 promising students in Germany with migration background get chosen to receive support, an excellent network and mentoring for 2 years
- **Best Poster Award** 2022
German Society of Audiology
 - Received the 1st prize at the poster competition of the 24th Annual Conference of the German Society of Audiology for automatic lipreading as a speech comprehension aid
- **Scholarship** 2022
German Academic Scholarship Foundation
 - The **Studienstiftung des deutschen Volkes**, Germany's most prestigious scholarship foundation, awards students with outstanding academic potential and personal promise
 - Awarded to fewer than 0.5% of German students
 - Provides me with full living allowance and funding for semesters, summer schools and internships abroad until my graduation
- **TANDEM-Scholarship** 2022
German University Foundation
 - Competitive merit-based scholarship awarded to first generation students, providing workshops, mentoring and annual financial funding
- **Honour for outstanding performances in STEM competitions** 2021
eLeMeNTe e.V.
 - One of 16 high school graduates of the state Saxony-Anhalt to be honoured for their outstanding achievements in STEM competitions while representing Saxony-Anhalt on a national or international level
- **National Finalist** 2020
German National Contest for Artificial Intelligence
 - Reached the national finals as one of the top 5 projects from over 2000 participants with a deep learning-based lip-reading algorithm
